Pios

5W55

It lives. It works. It brings together two different spheres of life, which are becoming increasingly intertwined in the modern world in terms of both time and space. Pios is a friendly face at conferences, an attractive addition to the office and then, when it is time to go home, an intimate acquaintance for a private life that embodies the contemporary art of living. Pios is a good-looking guest at the dining table in the home but also looks fantastic at its place in front of the writing desk. Pios lives and works with you like an old, trusted friend, but still manages to capture the modern age. On its own or as part of a team, it is designed for living, working, admiring and providing a sense of well-being.

Sit yourself down. It's ready for you. Your papers are sitting there at the other end, all sorted and waiting for you to work your way through them; you are patiently observing the scene whilst the clam-chowder steams and makes an inviting yet insistent little noise, demanding that you give it your attention right now. Pios. Where you sit now is completely up to you.
